# About Us

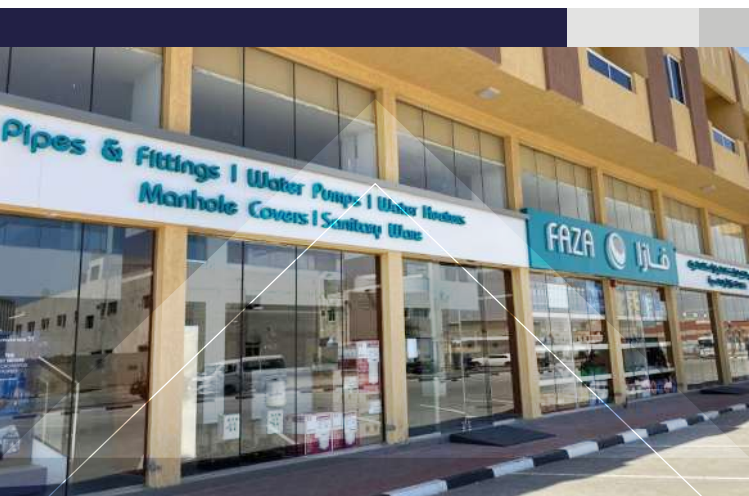

## Trust. Reliability. Efficiency.

We have built our reputation by meeting the needs of those in building construction and real estate, as well as consumers, over a period of 40 years.

Building our business from small retail roots in 1980, we have grown to now have a leading presence across the UAE and beyond, with warehouse space just under 100,000m<sup>2</sup> in total and 7 outlets across the region. In addition, our online retail shop ensures customers can always access the products they need.

Our growth has been powered by one concept: trust. We've always listened to our clients and understood what they need: professional service, extensive range, outstanding quality, and exceptional customer service.

When you choose Faza Sanitary Ware, you choose a name you can trust.

Faza has 7 outlets covering the entire UNITED ARAB EMIRATES.

Our mission is to provide our customers with sustainable products at an affordable price without compromising on customer convenience and satisfaction
